

The Curve Lake Adult Day Program, operated by the Victorian Order of Nurses (VON), has returned to the Curve Lake Community Centre and is pleased to welcome back existing Day Program participants every Tuesday and Thursday and invites new participants to consider joining in. The Day Program provides a day of activity and social interaction for older adults who may be experiencing physical, social or cognitive challenges. A variety of activities are planned and provided to work toward supporting each person's interests, health and well-being. A noon meal is provided. While participants enjoy a day away from home, their caregivers benefit from a day of respite to focus on their own needs. The program is offered every Tuesday and Thursday at the Curve Lake Community Centre and looks forward to welcoming new participants. **To enquire about registering for this program, or to make a referral, please call Audrey Cruikshank at the VON office at 705-745-9155 Extension 6423.**
