## **Curve Lake needs your input!**

Curve Lake First Nation (CLFN) has engaged MNP LLP to conduct an Economic Leakage Study. The goal of the study is to assess the extent to which income is spent outside the CLFN community and to identify opportunities to grow the CLFN economy.

As part of the study, MNP is administering a survey to collect data from residents of CLFN. The data collected will be used to estimate the amount of economic activity generated within the community, the amount of expenditure by households that occurs outside the community, and identify opportunities to grow the economy of the community.

The survey should only take approximately 20 minutes to complete. Your participation is voluntary and all information collected will be treated as confidential. No individual responses will be reported. All information provided to MNP, including completed surveys, will only be used by MNP for the purpose of this study. The results will be reported collectively and in aggregate, without the identification of individual respondents or businesses.

**The first 50 households to complete the survey will receive a \$10 Country Style gift card. (One per household)**

**To access the survey, please use the link below:**
