

Good News!

The Housing and Lands Departments are excited to let you know that Council has approved a

Septic Remediation Pilot Program!

Sponsored by GRF—Miigwech GRF!

The intent of this program is to address the environmental effects and public health and safety issues associated with improperly functioning individual, onsite wastewater systems (septic systems). It is in the best interest of our entire community to ensure that our land and water is protected and healthy.

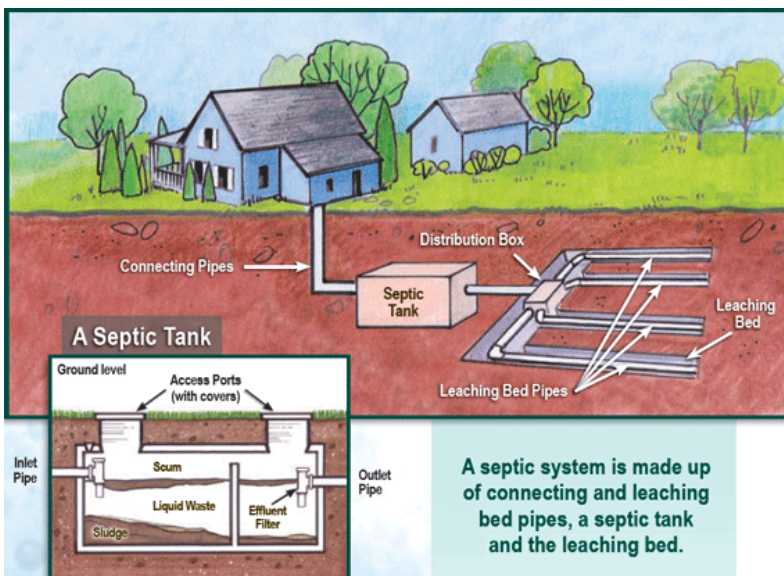

Curve Lake First Nation (sponsored by GRF) has developed a Septic Remediation Pilot Program Fund to provide access to financial assistance up to a maximum of \$8,000.00 in the form of a grant or low interest loan for members who need to replace, or make repairs to their aging or improperly functioning, existing septic systems.
