

Kawartha Natural Health Clinic

Central Ontario's Solution for Well Being

Call 705-749-2221

Jeff Piper, at Kawartha Natural Health Clinic, has been helping people achieve their ultimate health for more than 12 years. He is a certified Vitality Assessment Technician and Herbalist. He uses specialized equipment to determine areas that are compromised and to create a custom herbal remedy to restore your health.

Over the years, many of our clients have expressed excess weight as one of their main health concerns, so he went on the search for an affordable and effective weight loss program. The result of that journey has been the development of the Vitality Weight Loss program. Our clients in this program have been able to lose weight and keep it off without hunger or strenuous exercise. But more than that, they have decreased or eliminated medications for diabetes, blood pressure, acid reflux. They have experienced decreased pain, increased energy and feelings of overall well being.

We are excited to bring this program to Curve Lake! On Wed. Oct. 14 at 7:00PM we will be at the Curve Lake Health Center, 38 Whetung St. East. There will be a presentation outlining our program with an opportunity to learn all about it and ask any questions. See our videos on www.kawarthanaturalhealthclinic.com and read about our successes on Facebook.

Feel free to contact us to learn more at 705-749-2221.
