

May 17th is World Hypertension Day.

Come to the Health Centre on May 17th between 10am and 4pm and have your Blood Pressure Checked. Please call Alisa at 705-657-2557 prior to attending this Blood Pressure Clinic.

Hypertension is the leading risk factor for disease burden worldwide

- #1 cause of disease burden in developed countries.
- #2 cause of disease burden (after tobacco) in developing countries.
- #1 cause of stroke and heart failure.
- #2 cause of heart attack.
