

2016

CMHC AND THE HOUSING DEPARTMENT INVITES YOU TO ATTEND A

Basic Home Maintenance Workshop

Please join us

for a hands-on session that provides home occupants with a better understanding of how to prevent mold and how to do basic home maintenance.

Learn how to:

- Fix a leaky faucet
- Repair damaged drywall
- Identify and deal with day-to-day home repairs
- Prevent mold from becoming a major problem

Trainer: Chris Maracle

Chris Maracle is the former Director of Housing, Parks and Band property Maintenance for the Mohawks of the Bay of Quinte, which is located between Kingston and Toronto in South Eastern Ontario. Chris formed an innovative team having built more than 70 R-2000 homes over the past 15 years. Their projects and programs have received 17 Provincial and National awards which include Canada's 2003 Affordable Housing Award, Canada's Energy Efficiency Awards and most recently the 2004 R-2000 Most Sustainable Design and the 2004 Canadian Cement Association Most Energy Efficient Home.

Attendees are responsible for their travel costs/accommodation to attend the workshop.
